

Munich, Germany –22 May 2017 - LRE recently exhibited at the largest medical equipment fair and conference forums in the Asia Pacific Region. The 77th China International Medical Equipment Fair (CMEF) included medical imaging, *in vitro* diagnostics (IVD), electronics, optics, first aid, rehabilitation nursing, medical IT and outsourcing services. The CMEF consisted of 3,200 Exhibitors and approximately 250,000 attendees.

LRE used this opportunity to showcase some of its instrument solutions in-the-areas of *In Vitro* Diagnostics (IVD), Analytics, Life Sciences, and Medtech. The products represented all phases of the product life cycle from specification to product development to manufacturing and finally after sales services and support.

LRE Medical is a leading developer and manufacturer of medical and IVD instrumentation for OEMs. LRE offers “One Stop Shopping” solutions for converting ideas into commercially successful products. We integrate a customers’ assay “know-how” with our instrumentation expertise. For decades, our OEM customers have received commercially successful IVD instruments that were developed, documented, manufactured, and delivered by LRE –without a single recall. LRE is registered, certified and in full compliance with DIN EN ISO 13485, DIN EN ISO 14001, and FDA CFR Part 820 for Class I through Class III Medical Devices.

LRE’s instruments are competitively priced, yet manufactured with superior quality! For more information about LRE Medical and its services, please go to www.lre.de.
