

# LEACH<sup>®</sup> GFI Solution

## ... the choice for Boeing *and* Airbus

LEACH is the *only* OEM-approved source for customized Ground Fault Interrupter (GFI) relays for fuel pump applications on Airbus A-380 aircraft, as well as for retrofit and new production Boeing aircraft.

Leach GFI relays will be FAA certified according to SFAR-88 requirements. Plus, this technology can be incorporated into the majority of Leach products for use on other aircraft circuit applications.

**LEACH<sup>®</sup> GFI relays** — *ready and qualified for the world's aircraft fleets in 2005 and beyond!*

Esterline<sup>®</sup> Leach International
