

As a responsible corporate citizen, Armtec Countermeasures Co. – Arkansas Operations is dedicated to protecting human health, natural resources, and the local and global environment in accordance with the Environmental Principles of Esterline Corporation. This dedication reaches further than compliance with the law to encompass the integration of sound environmental practices into our business decisions. This policy is based on the intergration of risk-based cost-effective management practices into site activities, with the aim of continually improving environmental performance.

The site is committed to assess the environmental impacts of its activites and products to base its environmental management programs, and to reduce these impacts through the establishment of appropriate objectives and targets.

Armtec Countermeasures – Arkansas Operations will strive to achieve the following objectives through continual evaluation of our Environmental Management System:

1. Comply with all applicable environmental laws and regulations and other requirements to which the organization subscribes.
2. Assign management responsibility for the environment in all areas of the facility and ensure that all employees are aware of their individual responsibilities for acting in accordance with this policy, while providing effective resources and training to encourage individuals to contribute effectively.
3. Practice effective pollution prevention in accordance with a hierarchy, giving top priority to waste prevention at the source, recycling, and eliminating or reducing wasteful practices.
4. Maintain good communication with our local community and other organizations with an interest in our environmental performance.

In accordance with our Environmental Management System requirements, cited objectives and targets will be reviewed periodically to assess progress toward continuous improvement.

Jim Palmer
Vice President of Operations
Armtec Countermeasures Company
